MANJEET SINGH

Senior Software Developer

+91 9015282425 | manjeet2002m@gmail.com | linkedin.com/in/softwareengineermanjeet | Delhi NCR, India

SUMMARY

Senior Software Developer with 5 years of experience delivering scalable and secure web applications. Skilled in modern front-end and back-end technologies, database design, and performance optimization.

EXPERIENCE

Senior Software Developer

Interlace India Pvt. Ltd. | *Client: National Housing Bank (NHB)*

01/2025 – Present | Delhi

- Built and deployed **Training Management**, **Recruitment**, and **Grievance Redressal** systems with secure authentication and automated workflows.
- Developed a **Training System** with calendar sync, attendance tracking, feedback, and reporting.
- Built a **Real-Time Pricing Index Dashboards** with interactive charts and data visualization for dynamic business insights.
- Integrated **CIBIL**, **OTP**, and **payment gateway APIs**; conducted monthly **vulnerability assessments** and enforced security protocols.

Software Developer

Cyfuture India Pvt. Ltd. | *Client: National Housing Bank (NHB)*

08/2024 – 01/2025 | Noida

- Developed a **Loan Management Web Application** with secure validation workflows and large-scale data handling.
- Built a **Pricing Index Application** visualizing data using multiple chart types (line, bar, geo-map) and generating dynamic analytical reports.
- Strengthened authentication using **salted SHA-256** and **bcrypt**, optimized backend APIs, and improved real-time performance.
- Performed **penetration testing** and implemented **security hardening** to ensure application integrity.

Full Stack Developer

Av Softcrafts

07/2021 – 08/2024 | Delhi

- Developed a **multi-vendor e-commerce platform** where shops register, manage inventory, and handle location-based listings.
- Enabled **cart management**, **order notifications**, and **shop availability tracking** for real-time customer engagement.
- Migrated **legacy console apps** to **ASP.NET web systems** and optimized **SQL Server** performance using stored procedures.
- Collaborated cross-functionally and mentored junior developers to enhance delivery efficiency.

EDUCATION

Master of Computer Applications (MCA)

Lovely Professional University

01/2025 – Present | Phagwara, Punjab

Bachelor of Computer Applications (BCA)

D.A.V Centenary College

08/2017 – 08/2020 | Faridabad, Haryana

PROJECTS

- **Grievance Redressal System (GRIDS)**
  - Designed complaint management with automated/manual routing and email alerts.
  - Enabled in-portal communication between nodal officers and organizations.
  - Added status tracking, appeal submission, and reporting for transparent resolution.
- **Nirman (Loan Workflow System)**
  - Built secure loan workflow from application through disbursement.
  - Implemented multi-role access and dynamic eligibility validations.
  - Applied encrypted authentication to ensure compliance and security.
- **Training Management Portal**
  - Developed training platform with calendar sync and approval workflows.
  - Integrated attendance tracking and feedback collection.
  - Delivered analytics reporting to improve training effectiveness.
- **NHB Residex Website**
  - Designed and deployed a dynamic data visualization dashboard with interactive charts.
  - Implemented real-time data updates and automated reporting for accurate business insights.
  - Enhanced usability through responsive design and optimized APIs for seamless performance.
- **NHB Recruitment Portal**
  - Developed portal with secure registration and validation-driven forms.
  - Enabled document uploads, draft saving, and payment gateway integration.
  - Streamlined end-to-end application submission process.
- **Security & Vulnerability Assessment**
  - Conducted monthly penetration testing (black/grey box).
  - Identified and mitigated vulnerabilities proactively.
  - Strengthened system security through continuous monitoring.
- **E-Commerce Application**
  - Built real-time barcode scanning with inventory management.
  - Implemented distance/location-based visibility for shop-listed users.
  - Added dynamic shop timing management and geolocation tracking.

TECHNICAL SKILLS

- **Front-End Development:** HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript (ES6+), TypeScript, jQuery
- **Frameworks**: React, Angular, Vue.js
- **Back-End Development:** Node.js, C#, .NET Core, ASP.NET MVC, .NET Framework
- **Database Management:** MySQL, SQL Server, MongoDB
- **ORM & Data Access:** ADO.NET, Entity Framework
- **API Development:** RESTful API creation and consumption
- **Version Control:** Git, GitHub
- **Cloud Platforms:** Microsoft Azure
